KATHY S. JONES, CIH

Fresno County Crime Laboratory Criminalist Technician

(1975 - 1976)

- Qualitative and quantitative analytical chemist performing analyses for criminal investigations and court presentations.

PROFESSIONAL AFFILIATIONS

California Industrial Hygiene Council (CIHC) - Current member.

American Board of Industrial Hygiene (ABIH), 1984 - present.

American Industrial Hygiene Association (AIHA)

Member (1982 - 1992) and 1996 - present

Site Assessor for AIHA Environmental Lead Laboratory Accreditation Program

AIHA, Southern California Section

Past Treasurer

Member, American Chemical Society.

Past Voting Member, American Council of Independent Laboratories.

OTHER PROFESSIONAL ACTIVITIES

California Department of Health Services - Lead Workshops; Member 1996 - 1998.

Organized, developed and/or presented health, safety, environmental seminars, workshops, programs for such organizations as AIHA, L. A. Chapter of National Safety Council.

Instructor, School of Systems and Safety Management, Univ. of So. California (USC).

Taught segments of AIHA, Southern California Section's Industrial Hygiene review course; also taught same for MBA Associates course of a similar nature.

POST-GRADUATE COURSES:

Quantum Mechanics

Toxicology

SPECIAL TRAINING OR COURSES:

Industrial Hygiene Quality Assurance / Quality Control - NIOSH

Sampling & Evaluating Airborne Asbestos Dust (NIOSH 582) - HSA

Inspecting Bldgs. For Asbestos-Containing Materials - USC/ISSM

Management Planning for Asbestos - USC/ISSM

Asbestos Abatement Contractors & Supervisors Course - National Environmental.

AHERA Project Designer - National Environmental

Statistical Analysis for Industrial Hygiene Sampling and Decision Making - USC/ISSM

KATHY S. JONES, CIH

Laboratory Techniques & Trends - MBA Associates/HSA

Operator Certification for XRF - RMD Corporation

Confined Spaces - Cal/OSHA

Indoor Air Quality - Orange County AIHA

Lead-Based Paint Issues for Certified Industrial Hygienists - University of California, Berkeley

Mold in the Indoor Environment: Assessment, Health & Physical Effects, and Remediation - ASTM
